4. Safety Governance & Certificate Verification

Statutory Certificate Management:

- Every registered worker possesses a statutory DGMS (Directorate General of Mines Safety) certification stored with QR verification & cloud document URLs.
- Certificate Types include: *Electrical Competency Certificate, Mechanical Fitter Competency, Heavy Machinery Operating Permit, DGMS Blasting License, and First Aid & Safety Permit.*
- Expiry & Renewal Alerts are calculated dynamically with automated CAPA (Corrective and Preventive Action) escalation for non-compliance.
